

Someone You Can Always Trust On at That Critical Time.

Our Mission

At American Home Health Care, our mission is to break the cycle of homelessness by delivering compassionate, high-quality care in a safe and supportive environment. We are proud to offer a comprehensive range of health and support services designed to empower displaced individuals to live their best possible quality of life.

What we do

We serve displaced individuals across the Twin Cities by providing the comprehensive follow-up care they need during the transition from hospital to home. Our dedicated team of professionals delivers essential treatment and support services that play a vital role in helping clients regain independence and work toward a better quality of life.

We offer the following Recuperative Care Services:

A quiet, comfortable environment that promotes healing and rest
Assistance with wound care and post-surgical needs
Clinical goal development for the recuperative care period and discharge planning
Care plan implementation, follow-up, and monitoring
24/7 medication reminders, support with mobility and personal care
Nutritious meals to strengthen recovery and overall well-being
Coordination with physical and occupational therapy providers
Transportation to follow-up medical appointments

Recuperative Care Services

Empowering Minnesota's unhoused community with essential medical care and recovery services to improve health and well-being. medical monitoring, therapies, personal care assistance, pain management, nutritional support, and psychosocial counseling. It empowers providers to create a compassionate, patient-centered care model that not only promotes physical healing but also enhances mental well-being, helping individuals transition from hospital care to full recovery with dignity and comfort.

24-hour access to a bathroom (shower, sink, and toilet)
24-hour access to a bed
Access to three meals per day (included in per diem)
Availability to environmental services
Access to a telephone
Secure place to store the member's belongings

Recuperative Care

The overall goal of recuperative care is to support patients in their recovery process, providing an environment that fosters healing and helping them transition back to their normal routines or home life. It is an important bridge between hospital discharge and full recovery or independence, helping patients avoid re-hospitalization and reduce complications during recovery.

Covered Services

Facilities and providers must ensure they are providing services only within their scope of practice. MHCP covers the following recuperative care services:

Basic nursing care including monitoring physical health and pain level

Wound care

Medication support

Patient education

Immunization review and update

Clinical goals development for the recuperative care period and discharge plan

Care coordination including initial assessment of medical, behavioral and social needs

Care plan development

Support and referral assistance for legal, housing, transportation, case management and community social services

Support and referral assistance for health care benefits, health and other eligible benefits

Care plan implementation follow-up and monitoring

Medical, social and behavioral (counseling and peer support) services that can be provided in the recuperative care setting

Community health worker services (Minnesota Statutes, 256B.0625)

Note: The member must receive care for the physical medical condition needing recuperative care services otherwise we will deny the daily room and board claim. Recuperative care is focused on the member's physical medical condition and the recuperative facility cannot be centered on one covered service (for example, mental health only).

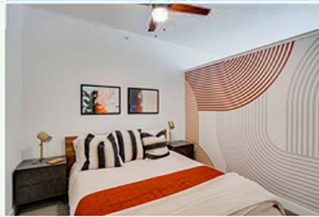

We would love to show you our facility!
